## Hickman Gun Club's Big 3-Days' Shoot Begins Next Monday. Some Good Purses.

The Hickman Gun Club's third annual tournament will begin next Monday and last three days.

Prominent shooters from all over the United States have written President S. L. Dodde that they would be here and bring somebody with them.

They are a high-class lot of folks, and we should make every effort to show them a good time while the guests of Hickman.

**ATTENTION.**

In arranging for our Shoot for this season we had arranged and advertised the fact that we would give a Three Days Shoot, Percentage System, with One Thousand Dollars cash added money. After the Interstate Association passed a ruling adopting a regular programme of 150 targets "Squier Money Back System," we have decided to give three extra events consisting of 25 targets each, and one 12-pair doubles each day, divided percentage system into five moneys, 20, 20, 20, 20 and 20 per cent.

We also have some special high and low average prizes which you will note for those shooting through the entire programme. These special events take up \$550 of our added money.

Now so there will be no confusion or misunderstanding we wish to say that we will give \$500 added to the Squier Money Back Purse (this to include \$150 given us by the Association and the one cent per target required by the Association BUT NOT THE ONE DOLLOR EXTRA PER DAY EXTRA CHARGE) and this is based on our having 75 OR LESS shooters to participate. However should we have over 75 (and we have every reason to believe we will have at least 125 shooters) we will then add \$5 additional for each shooter above 75. This purse of course will be divided as per printed "Squier Money Back System"

We will use four sets of automatic traps and shooting will begin promptly at nine o'clock. Interstate Rules Governing.

Fashionable Figures are not made by chance but by careful corsetting

STYLE means a lot to a woman. Now and then a woman may sniff, but if studied one can see a failing in a style direction.

The effect of the most beautiful gown may be entirely spoiled if the base—the corset—is not right. The waist of the dress may not touch the figure at the exact point, the hips not be properly shaped and the gown may wrinkle, be too tight or too loose.

CORSETTING will do this oftentimes if the corset shape is not right, or it may result from careless adjusting or wrong lacing. A small matter like the lacing may throw the entire corset out of figure alignment and the wearer will be wretchedly uncomfortable.

That is what we are here for—for correcting corset mistakes. It is our business to study figures, all kinds of figures, large and small, tall and short, even figures with imperfections, and these are well corsetted through our specialized study of the subject.

Prices \$1.00 to \$5.00

### Sexton Will Resign.

J. P. Cusick who has for the past 21 years had charge of our city cemetery, has tendered his resignation as sexton, to take effect July 1st.

The reason assigned for his act is very justifiable; he simply cannot do all the work himself, and has not been allowed sufficient help to take care of the cemetery in a proper manner.

Acting Mayor, Jno. T. Dillon, thinks we should make some arrangement to avoid his resignation. With the exception of Mayor Tom Dillon, no other person is so well acquainted with the lots, graves, etc., as Mr. Cusick. His knowledge of these matters alone is worth half his salary.

He should be kept as sexton and additional help provided.

Lee Carter of Fulton, who was tried in Clinton for the murder of Frank Bolcom, and who received a life sentence, and given a new trial, has been transferred to Mayfield and placed in jail.

H. C. Barrett, funeral director and embalmer, with St. Louis Furnishing Co.

### Teachers Examination.

The county and state teachers' examination for Fulton county will be held at the Court House in Hickman June 16 and 17.

The examination for colored teachers will be held at the same place June 23 and 24.

Virginia Luten, Supt.

W. T. Barton, of the South Hickman suburbs, brought to the Courier office this week a sample of crimson clover, grown on hill land that has been in cultivation sixty years. The clover measures 46 inches, and is the finest specimen we ever saw, even though it has gone through a month's drouth. A twenty acre plot cut three tons per acre, and is good for a second crop of hay with a seed combination. Who will say that land around Hickman is not cheap at \$300 an acre?
